+6.500 VERTYSYSTEM LOVERS
ALL OVER THE WORLD

WE THINK GREEN.

For the next 5 years, in collaboration with a spin-off of the University of Padua, we will be concretely engaged in an Eco-sustainability project, which aims to repopulate the Asiago plateau heavily hit in 2018 by the force of the hurricane VAIA.

For each adhesion to the Vertys Care project, we will undertake to plant a tree with a dedication to the customer on the Asiago plateau.

DISCOVER MORE
about how we will be concretely engaged!
